Bangkok Academy
of Sports and
Exercise Medicine

BASEMO

The Bangkok Academy of Sports and Exercise Medicine (BASEM) at Bangkok Hospital has been named an accredited FIFA Medical Center of Excellence, which assures that we provide the same high standard of care found at the centers in Europe, the United States, Australia, South Africa, Japan and Qatar.

The Bangkok Academy of Sports and Exercise Medicine provides a wide range of consultation and treatment, including:

- Check-up and pre-participation (PPE) physical examinations incorporating sports medicine protocols to develop and maintain good physical condition and ensure optimal sports performance and injury prevention
- Rehabilitation for sports- and exercise-related injuries, or excessive use of muscles and joints, and minimally invasive procedures for the treatment of joint disease and degeneration
- Consultation on health promotion and physical fitness for patients with underlying medical conditions
- Treatment for patients with frozen shoulder
- Exercise instruction for patients with osteoarthritis
- Post-operative consultation following a hip or knee arthroscopy or knee tendon repair

The goal of BASEM is to provide a high global standard of consultation and care that helps patients improve their athletic ability, prevent injury, and enhance their quality of life.

สถาบันเวชศาสตร์การกีฬาและออกกำลังกายกรุงเทพ
BANGKOK ACADEMY OF SPORTS AND EXERCISE MEDICINE

Introducing BASEM, the first **FIFA** accredited center in Southeast Asia.

The Fédération Internationale de Football Association (FIFA) has certified Bangkok Hospital for meeting international service standards for FIFA athletes. The Bangkok Academy of Sports and Exercise Medicine is now the first facility in Southeast Asia to be officially acknowledged as a **FIFA Medical Centre of Excellence** for providing state-of-the-art treatment, diagnosis and aftercare for sports-related injuries.

Enjoy the move
